

MD. SAIFUZZAMAN NAIM

AI-SAAS ENGINEER · FULL-STACK · MACHINE LEARNING · SECURE SYSTEMS

Dhaka, Bangladesh | +880 1776-525005 | saifuzzaman.naim007@gmail.com
cloudmonk.cc | github.com/SAIFZaman007 | linkedin.com/in/saifzaman

PROFILE

AI-SaaS engineer who takes products from brief to production — FastAPI and React systems, LLM and retrieval pipelines, payments, auth, and the deployment around them. Leading the AI-SaaS team at Maktech after promotion from intern within two months, alongside contract delivery for international clients. Comfortable owning the unglamorous layers — migrations, webhooks, CI, hardening — that decide whether a launch holds.

EXPERIENCE

AI-SaaS Engineer, Team Lead — Maktech, Dhaka Jan 2026 – Present

- Lead the AI-SaaS engineering team, owning architecture and delivery across client and internal products.
- Ship full-stack products end to end: FastAPI + PostgreSQL backends, React/Vite front ends, Stripe payments, containerised deployment.
- Build LLM and retrieval-augmented systems over client data using pgvector, ChromaDB, and Pinecone.
- Set team standards — API documentation, code review, deployment health checks, incident triage.

Intern, AI-SaaS — Maktech, Dhaka Nov 2025 – Dec 2025

- Shipped production features on live client products; promoted to team lead within two months.

Freelance Software Engineer — Independent 2024 – Present

- Contract full-stack, AI, and SaaS delivery for clients across the UK, US, New Zealand, and Nigeria — scope, architect, build, hand over.
- Representative work: a Cisco certification platform (FastAPI, Prisma, React, Stripe), a restaurant operations API (75 endpoints, 16 modules), a Solana trading terminal front end.

Quality Assurance Intern — Summit Towers Limited, Dhaka Aug 2025 – Oct 2025

- Quality & Service Assurance: snag analysis, data backup, ad-hoc project management; supported telecom engineering and vendor management.

SELECTED PROJECTS

Trubbi — Group Trip Planning Platform trubbi.ai

Group travel planning product removing the coordination overhead of planning trips; shipped through launch and waitlist onboarding. React · FastAPI · PostgreSQL

Advanced AI — Deal Hunter advancedai.com

AI deal-discovery platform surfacing and ranking offers automatically, replacing manual comparison with a scored feed. Python · React · LLM

Elyxa AI elyxaai.com

AI SaaS platform delivered end to end — product surface, API layer, deployment. React · FastAPI · AI

CTHTS — Cyber Threat Hunting & Termination System

ML platform analysing live network traffic to detect and block malicious IPs automatically. Top-20 of 130+ teams, NSU Innovation Challenge. Suricata · Cowrie · T-Pot · NS-3 · PyTorch

iBDs — Intelligent Blood Donation System

Nationwide platform matching donors to urgent needs, forecasting demand, and screening eligibility from historical data. React · Node · ASP.NET · PostgreSQL · PyTorch

TECHNICAL SKILLS

Programming	Python, TypeScript/JavaScript, C++, Java, SQL, PHP
Backend	FastAPI, Django, Node.js, REST/OpenAPI, Prisma, Celery, Stripe, JWT/OAuth
Frontend	React 19, Vite, TypeScript, Tailwind CSS, Framer Motion, Three.js
AI / ML	PyTorch, TensorFlow, scikit-learn, OpenCV, YOLO, RAG pipelines, pgvector, ChromaDB, Pinecone
Data	PostgreSQL, MongoDB, Redis, Pandas, NumPy, Matplotlib, Seaborn
DevOps	Docker, Kubernetes, Drone CI, GitHub Actions, Coolify, Cloudflare, Nginx, Linux
Security	Suricata, Wireshark, Nmap, T-Pot, Elasticsearch, IDS/IPS, CSP & header hardening
Languages	Bangla (native) · English (professional working proficiency)

EDUCATION

BSc in Computer Science and Engineering — North South University, Dhaka 2019 – Apr 2025

Higher Secondary Certificate, Science — Cambrian College, Dhaka 2017 – 2018

Secondary School Certificate, Science — Noakhali Zilla School 2014 – 2016
